Who Is Ttondo?

Ttondo is a Ugandan Incorporated company and locally owned. The company offers Engineering Construction and Construction Project management.

Ttondo is dedicated to organizations or Individuals seeking construction services.

We provide engineering construction services

to Power distribution and transmission companies, Parastatals, oil and pipeline companies, public works agencies, municipalities, and commercial/residential real estate developers.

Our area of expertise includes but not limited to building technology, civil and structural engineering.

We are committed to providing the best possible construction expertise & service to ensure cost effective and successful projects.

We work closely with our clients to accurately interpret their dreams/visions in drawings and bring them to the desired reality through construction solutions to meet their needs; We communicate with our clients throughout the construction process to keep them informed of progress and to ensure that our project keeps on schedule and within budget.

We Believe in and Promote Quality Delivery

Our Vision

A regional market leader in provision of civil engineering and building construction services

Our Mission

We aim to be a world class engineering Construction Company providing efficient affordable, sustainable, cost effective services of highest level of quality.

Our Values

We believe in maintaining the highest standard of professionalism, integrity, creativity, positive attitude, delivery that meets and surpass expectations while offering prompt and lasting solutions that stand the test of time.

Power Substation & Transmission Line Civil Works

Ttondo has been undertaking civil works construction for Power sub stations for the past four years in Uganda and Kenya. This scope ranges from Earthworks, transformer and outdoor equipment foundations, oil pits, cable trenches, control building, fences, boundary walls, drainages, substation internal and access roads.

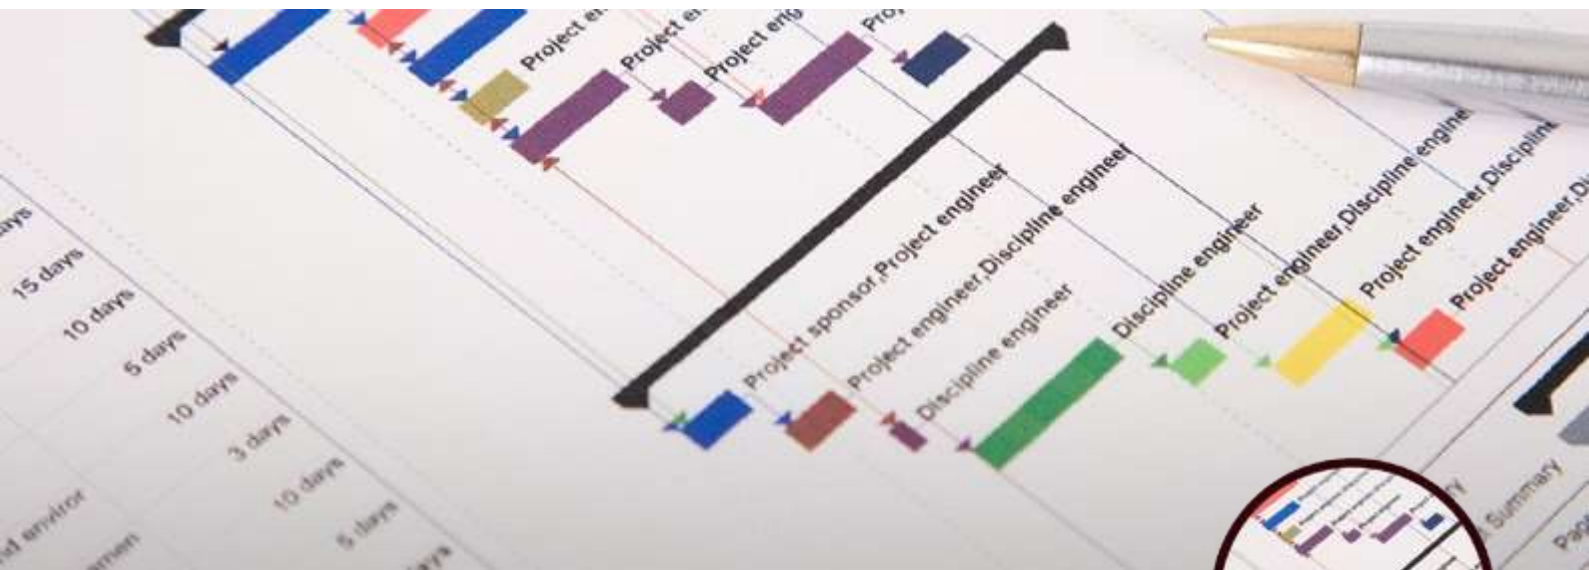

Civil Engineering Structures and Roads Construction

Ttondo offers a wide range of civil and structural engineering construction ranging from steel structures erections, reinforced concrete structures and road construction in gravel, paving blocks, concrete, bitumen roads and associated drainage structures.

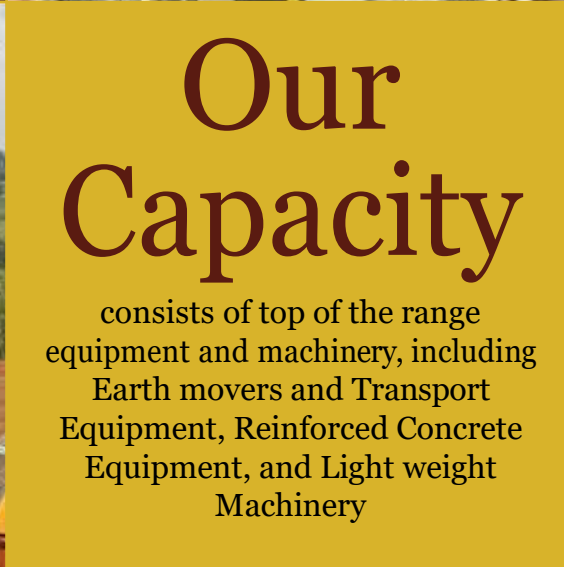

Building Construction

We also pride ourselves of vast experience in the building industry where we have constructed both high-rise and low-rise residential buildings, commercial buildings and also institutional buildings.

Construction Project Management

Ttondo also offers a wide range of project management services which include but not limited to construction project planning & management, contract management, construction project supervisions and site inspections.
